JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD

B. Tech III Year II Semester Examinations, April - 2018

INFORMATION SECURITY
(Computer Science and Engineering)

Time: 3 hours

Max. Marks: 75

Note: This question paper contains two parts A and B.

Part A is compulsory which carries 25 marks. Answer all questions in Part A. Part B consists of 5 Units. Answer any one full question from each unit. Each question carries 10 marks and may have a, b, c as sub questions.

PART - A

(25 Marks)

- 1.a) Explain the Caesar cipher. [2]
- b) Define confidentiality and authentication [3]
- c) Differentiate conventional & public key encryption. [2]
- d) What is traffic Padding? What is its purpose? [3]
- e) What is the purpose of X.509 standard? [2]
- f) In the content of Kerberos, what is realm? [3]
- g) Explain the reasons for using PGP. [2]
- h) Compare Transport mode and Tunnel Mode. [3]
- i) What do you mean by malicious software? [2]
- j) What is application level gateway? [3]

PART - B

(50 Marks)

- 2.a) Explain how gateway works in internetwork security model.
- b) Explain the various types of cryptanalytic attacks. [5+5]

OR

- 3. Explain symmetric and asymmetric key cryptography. [10]
- 4.a) Explain how key exchange is done using Diffie-Hellman key exchange.
- b) Discuss the "man-in-the-middle" attack. [5+5]

OR

- 5. Explain Blowfish algorithm. [10]

- 6.a) What is HMAC and what are its advantages over MAC?
- b) Discuss different approaches to Message Authentication. [5+5]

OR

- 7. Discuss the requirements of Kerberos. Explain the Kerberos ver-4 message exchanges. [10]

AG AG AG AG AG AG AG A

- 8.a) Explain the different MIME content types.
b) Explain S/MIME certificate processing method. [5+5]

OR

- 9.a) What are the applications of IP security?
b) Describe the general structure of IPSEC authentication header. Discuss how anti-reply service is supported. [5+5]

10. Explain the different types of firewalls with neat diagrams. [10]

OR

11. Discuss about Intrusion Detection and approaches of Intrusion Detection. [10]
